

ARMY GROUP INSURANCE FUND**APPLICATION FORM :CAR / TWO WHEELER ADVANCE**

1. Type of Loan	Car	2. Army Number	IC123M
3. Old Army No	IC123M	4. Rank	Lt Col
5. Name	AB Singh	6. Date of Birth	01-12-1988
7. DOE/DOC	01-12-2017	8. Date of Retirement	01-12-2045
9. Mobile No	1313131313	10. Email ID	aec@gmail.com
11. Regt/Corps	AEC	12. PCDA(O)/PAO(OR)	PCDA(O) Pune
13. PCDA(O) Acct No	65/464/646464A	14. PAN Card	FASDF3213A
15. Aadhaar Card No	3213-1112-1321	16. Parent Unit	Army Group Insurance Fund
17. Present Unit	Army Group Insurance Fund	18. Unit PIN	202022
19. Unit Address	c/o 56 APO	20. Civil Postal Address	
21. Fmn HQ	AGs Branch IHQ of MoD Army	22. Date of Prom	
23. Permt Home Address	Haripur, Haripur, Etah, UP, 132131		
22. Dealer Name	Deep Automobiles	23. Model Name	Bolero
24. Vehicle Cost	600000	25. Vehicle Type	New Car
26. Loan Amt Reqd:	540000.00	27. No of EMI (In Months)	96
28. Salary Acct No	2525252525	29. Bank IFS Code	SBIN3332323

30. I state and certify that:

(a) I have read the instr / rules regulating the grant of loan to AGIF members for purchase of four / two wheeler and agree to abide by the terms and conditions stipulated therein from time to time. I agree to pay the one-time non-refundable insurance premium and abide by its terms and conditions.

(b) I shall refund in one lump sum the full loan together with interest outstanding thereon, in case, I wish to sell the vehicle. The vehicle will be kept comprehensively insured from the date of its purchase till the loan together with interest, is fully repaid to AGIF. I will not use the vehicle for commercial purpose.

(c) Attested copy of **RC, Insurance, Bill / Invoice and Cash Receipt from Dealer** will be submitted within 180 days of sanction of loan. I shall refund the loan in one lump-sum with interest in the event of my failure to purchase the vehicle or to produce relevant documents of purchase within the stipulated time **180 days**, failing which I authorise MD, AGIF to effect recovery of the entire outstanding amount together with additional interest of 2% for default period, through my IRLA.

31. I further agree that:

(a) If, at any time, it is found that I have obtained Car / Two Wheeler Loan from AGIF by misrepresentation, misstatement or fraud or have committed a breach of the terms, conditions / instructions issued from time to time by AGIF, I shall without prejudice, be liable to legal, disciplinary or any other action and will become liable to repay in one lump-sum the entire amount of loan or balance of the outstanding loan together with interest for period of default of 2 % higher than the rate of interest at which the loan was sanctioned, to AGIF without any demur.

(b) I will ensure that I will maintain adequate credit in my IRLA during the duration of repayment of complete loan instalments. In case of any debit balance resulting in non-remittance of EMI (instalment) by the CDA (O) / PAO (OR) to

AGIF, I undertake to pay it directly along with interest for period of default of two percent over and above the rate of interest at which the loan was sanctioned, as levied by the AGIF for the delayed period of instalments.

(c) I will repay the loan amount with interest by monthly deductions from my salary and I hereby authorise the AGIF to make such deductions. I will repay the difference to the AGIF forthwith within one month from the date of sanction of loan, if the actual cost of vehicle is less than the loan paid for purchase of motor vehicle.

(d) In case the vehicle for which loan has been obtained meets with an accident or gets damaged due to unforeseen event and is declared beyond economical repairs or is lost due to theft or fire, the amount claimed from Insurance company will be paid in full towards balance amount of loan to AGIF.

(e) In the event of my becoming non-effective / retirement / dismissal / premature retirement and death preceding retirement, the AGIF shall be entitled to recover through the PAO (OR) / CDA(O) and / or receive the balance of the loan with interest remaining unpaid and any other dues from the whole or any specified part of the gratuity that may be sanctioned to me, Insurance / Disability / Maturity / survival benefit of AGIF, death benefits, DSOP Fund, DCRG, Commuted value of pension, leave encashment, Service pension, payable to the Applicant, without any demur from any quarter.

(f) I will pay the sum of loan amount or the balance remaining unpaid at the date of retirement / dismissal / premature retirement from service by equal payments on the first day of every month and will pay interest on the sum remaining due as calculated according to the rules. I authorise the PAO (OR) / CDA (O) to deduct the amount as conveyed by AGIF from my salary. I hereby assign and transfer upto the AGIF the Motor Vehicle by way of security for the said loan and the interest thereon.

32. I, solemnly declare that the details/information furnished by me and averments/certifications made herein are true to the best of my knowledge and belief and have not willfully suppressed any material information.

IC123M

Lt Col AB Singh

Application Testing Checklist with JMeter, k6, and SonarQube

1. JMeter - Performance and Load Testing

- Identify test scenarios and endpoints (API/UI).
- Prepare test data and parameters.
- Design test plan using Thread Groups, Samplers, and Listeners.
- Add HTTP Request samplers for each endpoint.
- Add assertions for response validation.
- Configure ramp-up time, number of users, and loop count.
- Integrate CSV Data Set Config for dynamic input.
- Use timers to simulate real-user behavior.
- Enable Result Tree, Summary Report, and Aggregate Report.
- Run tests and monitor performance metrics (TPS, Latency, Errors).
- Export results to CSV for analysis.
- Generate HTML Report.

2. k6 - Load Testing via Code

- Install k6 and setup basic test script.
- Define stages for ramp-up, peak, and ramp-down.
- Use `http.batch` to simulate multiple calls.
- Add checks and thresholds for performance validation.
- Run local or distributed tests using `k6 run` or `k6 cloud`.
- Analyze output metrics (http_req_duration, checks, vus, etc.).
- Export result data in JSON or InfluxDB format.
- Integrate with Grafana for visualization (optional).

3. SonarQube - Code Quality and Security Analysis

- Install and configure SonarQube server.
- Generate or obtain authentication token.
- Configure sonar-project.properties file in project root.
- Run `sonar-scanner` with appropriate project key and token.
- Ensure code coverage tools (e.g., Jacoco, Istanbul) are integrated.
- Review bugs, vulnerabilities, and code smells in dashboard.
- Fix reported issues and re-run scan.
- Ensure code meets quality gates and standards.
